

AMES Parents,

As you may know, the AMES faculty has been working diligently over the past several months to convert their classes to using Canvas. Canvas is an online learning environment used by school districts, as well as colleges and universities, to deliver curriculum and increase internet security.

We have just recently enabled the parent portal for Canvas. This will allow you to see the same pages that your student sees without having to share a login. Having access will allow you to see the assignments calendar with upcoming projects and assignments plus you can view your student's grades.

How to set up the parent portal:

1. Access the AMES Canvas site
  - ames.instructure.com
2. Click on Parent of a Canvas User?
3. Fill in your name
4. Fill in your email
5. Fill in your student's username
  - 4 digit ID number plus last name
6. Fill in your student's password
  - Ask your student
7. Agree to the terms of use and privacy policy
8. Click Start Participating
9. Finally, you will get an email to confirm your access

Student logins contain student number and last name:

Example username: 1234lastname

Example password: AMES1234

If you have any questions, please contact our IT Director, Laurie Williamson at 801-278-9460 x157 or by email at [lwilliamson@ames-slc.org](mailto:lwilliamson@ames-slc.org)

Thank you!
